# "I DON'T SUFFER ANY MORE"

"Feel Like a New Person." says Mrs. Hamilton.

New Castle, Ind .- "From the time I was eleven years old until I was seventeen I suffered each

in bed. I had headache, backache and such pains I would cramp double every month. I did not know what it was to be easy a minute. My health was all run down and the doctors did not do me any good. A

neighbor told my mother about Lydia E. Pinkham's Vegetable Compound and I took it, and now I feel like a new person. I don't suffer any more and I am regular every month."—Mrs. HAZEL HAMILTON, 822 South 15th St.

When a remedy has lived for forty years, steadily growing in popularity and influence, and thousands upon thousands of women declare they owe their health to it, is it not reasonable to believe that it is an article of great merit?

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

A Fizzle.

The only way to successfully argue with a woman is to keep silent

#### When Housework Drags

Keeping house is hard enough when well. The woman who has a bad back, blue, nervous spells, and dizzy headaches, has a hard lot, for the family tasks never let up. Probably it's the result of kidney trouble and not the much-feared "woman's weakness," Strengthen the kidneys with Donn's Kidney Pills. They are as harmless as they are effective and may be used for children with weak kidneys, too.

#### A Michigan Case

Mrs. Anna Wright, 412 Vermont Ave. De-troit, Mich., says: "I had intense pains in my back and kidneys and the kidney secrethe kidney secreis were full of sedint. I tired easily,
ited in breathing,
iten I read about

The proper pruning of the blackbuds of the remaining shoots should scale as well. ollowing spring. Fourth, all old canes duced one crop of berries.

shoots to the hill is sufficient, according to the variety and fertility of the land. The shoots which are to be rethey have started growth, so that all of the food may go into those shoots as the plants reach a height of 24 to by pinching off the tip of the shoot after the disease is established. or bud. This can be done with the fingers or with a small pair of pruning shears. It is very important that REMOVING BORDEAUX the shoots be pinched off as soon as they reach the proper height, rather than let them grow to a greater height and then cut back. A longer cane is inclined to bend over to the ground unless some support is given.

#### SURGICAL ATTENTION REQUIRED BY TREES

Cut Away Loosened, Injured Bark, and Smooth Up Wound in Wood-White Lead Good.

If a tree has been barked or bruised or injured so that the bark is broken, it should be given surgical attention, so it will heal quickly and disease kept from the wound. With a clean knife cut away the loosened, injured bark and smooth up the wound in the wood. If decayed, remove the decay,

It is wise to disinfect with bordeaux mixture or corrosive sublimate one ounce to seven gallons of water. This is very poison, so do not let any animal drink it. To keep the insect and weather out of the wound fill the cavity with grafting wax, if a small wound, or with a cement if a large

White lead paint is good for cuts or wounds. Whenever a large limb is removed the stub-which should never be a stub-should be painted with white lead.

Humus for Celery Seed. Celery seed should be planted in soil having plenty of humus and a rather sandy texture. Barely cover the seed. To hold the moisture, a damp cloth or paper may be put on. that the location of the buildings. Sometimes the flat is covered with a fences and shrubbery should contrib plece of glass and shaded with paper, bute to the attractiveness.

# MIXTURE FROM FRUIT

Dilute Solution of Acetic Acid Will Do the Business Without Any Injury.

When fruits, such as apples, peaches or plums become smeared with bordeaux mixture it is often difficult to remove the stains without also injuring the fruits. But this need not be the case. Bordeaux mixture being composed of lime and copper sulphate can be readily dissolved in acetic acid -not pure acid because this might injure the fruit, a dilute solution will do the business just as well, though not quite so quickly, but there would

be no injury to the fruit. All that is necessary is to dip the fruit into the liquid, let it stay a few seconds, raising and lowering the receptacle several times to get rid of bubbles, then to place it in a vat or a spray of clean water. This will wash away all the bordeaux stains because the lime and the copper sulphate will have been chemically changed to the much more soluble acetates. Drying is all that remains to be done before packing.

Kindness to Cows Pays. Kindness to your cows will pay in dollars and cents. The cow that is made a pet is sure to give more milk than one that isn't. So make it your business to pet all of your cows.

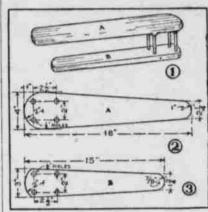

Attractive Farmstead. The attractive farmstead must always be kept in order. This means

HANDY THINGS TO MAKE FOR MOTHER.

will require wood three-quarters of one inch thick, out of which to cut pleces A and B (Figs. 2 and 3), and a sizes to provide an afternoon's fun carpenter's "dov'el" stick about two of toymaking. If you do not want feet long from which to cut four to wait until enough corks have accupieces five inches long for connecting A and B. Figs. 2 and 3 show the measurements for cutting pieces A and B.

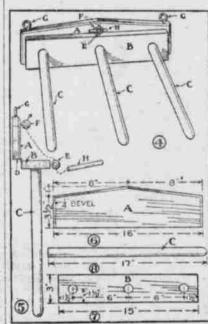

and the location of the one-half inch holes for the dowels, which should extend entirely through the pieces. Coat the ends of the dowels with glue, and fasten them with finishing nails driven through the edges of A and B.

Fig. 4 shows a unique rack for dish towels, with the back board so ninged that, when the towels hung upon them have dried and been put away, the as in Fig. 5.

Fig. 6 shows the dimensions for board A, Fig. 7 the dimensions for board B, and Fig. 8 the length of the broomhandle arms C. The holes in board B must be of the exact diameter of the broomhandles. Coat the ends through the edge of board B into

One pair of hinges is sufficient for hinging board B to A. They should be screwed to the edges as shown at D (Fig. 5). Screw eyes E and F (Fig.

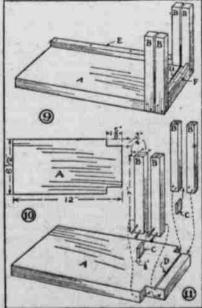

5) are provided for pin H to slip covered with the spray material is through when the arms have been moved should be cut out as soon as likely to become infected. The ob- raised, to hold them in that position (Fig. 4).

Screw one screw eye into the edge to be left to produce canes. As soon fungus before they germinate. In oth- of board B (E, Fig. 5), and two screw eyes into board A (F, Fig. 5), in the right positions so when the arms are raised screw eye E will come between screw eyes F. Screw eyes G (Figs. 4 and 5) are provided for hangers.

The purpose of the bread-slicing board (Fig. 9) is to make it easy to alice a losf of bread so each slice is

of equal thickness on all edges. Fig. 10 shows the dimensions for base A, and Fig. 11 the dimensions for uprights B. Block C will keep up-

rights B the right distance apart for the slot for the bread knife. Nail uprights B in place, then slip a saw through the slots, and cut a small groove in base A (D, Figs. 9 and 11) so the knife will cut through the bottom bread crust easily.

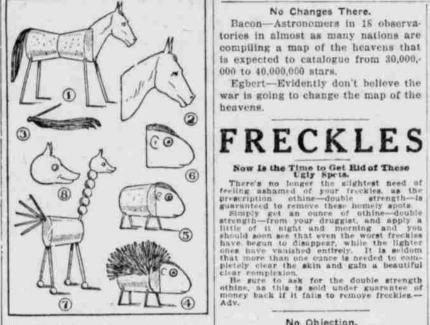

against when cutting, and strip F er in the top. (Fig. 9) fits between uprights B, on | Enough cork furniture can be dethe end of base A, and should be of vised to furnish a doll's house comthe proper width so there will be explicitly. Fig. 17 shows a bed. This actly five-sixteenths of an inch space has a cardboard mattress, cork feet

# CORK TOYS.

If you will save the cork from every For the sleeve board (Fig. 1) you empty bottle before it is thrown out or disposed of to the ragman, you will soon have enough shapes and mulated by this means, you can get what you will need at a drug store.

in addition to corks, you must have some cardboard, some worsted, beads toothpicks, burnt matches, pins and glue. For cutting the corks use a very sharp knife.

The horse (Fig. 1) has a body made of two tapered corks, with the small ends glued together. Use the pattern in Fig. 2 for the head, and glue this in a slot cut across the end of the body. The legs may be toothpicks or matches; glue them into holes in

the cork body. The tail is made of several strands of worsted tied to a pin (Fig. 3), which is stuck into the body.

The funny little porcupine (Fig. 4) has a tapered cork body (Fig. 5). toothpick legs, a cardboard head (Fig. 6), and toothnick quills.

Because cork birds and animals are funny creatures at best, it is proper to devise varieties other than those found in zoos. Fig. 7 shows a peculiar specimen. Isn't he a daudy with his ornamental neck? Five giass beads strung upon a toothpick form the neck, the cardboard head

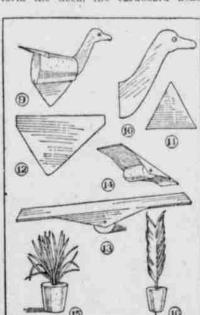

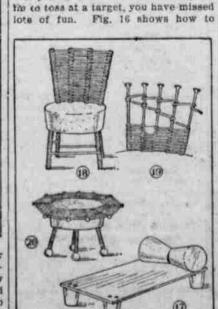

Fig. 8) sticks upon the end of the toothpick neck, and the toothpick legs have beads glued upon their ends, The duck (Fig. 9) is one of the many floating toys which can be made. Fig. 10 shows the head and neck, Fig. 11 the tail, and Fig 12 the keel fastened to the under side of the body to prevent upsetting. The keel should he of cardboard coated with paraffin .Tapering corks make splendid pots for toy plants for a doll house (Fig. 15), and plants can be made of paper

or pieces of artificial ferns. If you have never made a cork jave-

Strip E (Fig. 9) is nailed to the far make one by inserting a needle in the edge of base A, to push the bread bottom of a tapered cork, and a feath-

between its inside edge and slot D. and a pillow of two tapering corks

#### If you Suffer from Backache, Lumbago, Kidneys or Rheumatism, Take Hot Water and "ANURIC"

American men and women must guard tism, gout, gravel, neuralgia and scratical constantly against kidney trouble, because we can too much and all our food a new agent, called "Anuric," which will us rich. Our blood is filled with uric throw out and eradicate this uric acid which the kidney attents to file.

when your kidneys feel like lumps of lead, when your back hurts or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night, when you suffer with sick headache or dizzy, nervous spells, neid stomach, or you have rheumatism when the weather is bad, get from your druggist—"ANURIC" Because of urise and Pellets" for the liver and his "Favorite Prescription," for the ills of womanid in overahundance in the system, backache, pains here and there, rheuma-
